

April 28, 1975

like Kings are the only ones who can actually afford the insurance coverage they need. The two are very similar, pari-mutuel betting and insurance companies. But you know and I know that it is what they call the \$2 bettor that carries the racetrack. \$2 bettors don't get any inside tips and you all know it. I think racing ought to be abolished in the state but it is not going to be. So to do away with the hypocrisy, since you let them gamble in church, you let them gamble at the racetrack for semi-Christian operations. When Senator DeCamp's amendment to the Constitution comes up that says let everybody gamble, you ought to go for that but that is when the pious cloak is going to come down on everybody and you are going to talk about how it demoralizes a society, how it encourages organized crime to come into a community and so forth because it is not your type of organized crime, it is not your organization raking in the profits. I want Senator Burbach and those who support this bill to understand that I don't have anything personal against them. Everybody gambles. Some of my best friends gamble. That's how I know how devastating gambling is, but just because everybody does it does not mean that a legislative body has to acquiesce in stupid actions of an unlearned, unintelligent public looking for a quick buck, a get-rich scheme but you are giving it to them. You are endorsing it, so since you are going to let the big people at Aksarben rake theirs off the top and get rich, why don't you allow people to gamble in store fronts, why don't you let them shoot craps on the corner, if they want to. Go ahead and give something to the little man. Don't make him come to the big man's domain and support the Sport of Kings. Let him do it on his own level everywhere he can find somebody who will take a wager with him or match coins or roll dice and let it be but you won't. Senator Burbach, may I ask you a question? Do you think that racing and pari-mutuel betting elevates and ennobles a society and makes the people better?

SENATOR BURBACH: I suppose the answer would need to be in the negative somewhere except if we don't provide for Nebraskans, other areas will and we do have a track outside of Nebraska, or others in Nebraska and we cannot take them away by this bill. We are trying to provide the funds necessary by keeping our commitment with the bonds people to continue this for 25 days, 15 in Omaha, 10 in Columbus to substantiate this track here and we are not abolishing all other tracks.

SENATOR CHAMBERS: I have one other question. There are some states in some parts and some cities where, by tacit agreement with the local authorities, prostitution is legal. Would you be in favor of legalizing prostitution in Nebraska so that clients that leave Nebraska and go to other places would stay here?

SENATOR BURBACH: I wasn't aware that they did this, Senator Chambers.

SENATOR CHAMBERS: They do, members of the Legislature, I have said all that I have to say.

PRESIDENT: Senator Frank Lewis.
